

RiskMetrics Global Compact + Report

Hewlett-Packard Company (HP)

June 21, 2011

This report is based on RiskMetrics data. Global Compact Plus (GC+) is an integrated tool that assesses company performance relative to the 10 principles of the United Nations Global Compact. With GC+, investors are able to determine the how companies adhere to international norms and principles, with attention to their strategies, their disclosure, and most importantly, their actual performance. GC+ goes beyond what companies are saying and focuses on what they are actually doing. GC+ provides in-depth coverage of over 2,000 companies worldwide. Companies are rated using a qualitative, sector-specific assessment of the materiality of the risk posed to each company by each issue. These individual company results help you identify hidden reputational risk and opportunities, with a "traffic-light" code to facilitate quick understanding of the overall assessment.
